

## **How to integrate with Kaltura**

V1.0 – August 2021

## Kaltura Settings

From the home screen of the Rapidmooc application, click on the "settings" button.

On the Settings screen, select the **Video platform** Tab

Then select Kaltura in the platform list

Enter your Panopto server address in the **Video platform URL** field

Enter your Partner Id in the **Security parameter #1** field

Enter your Admin Secret code in the **Security parameter #2** field

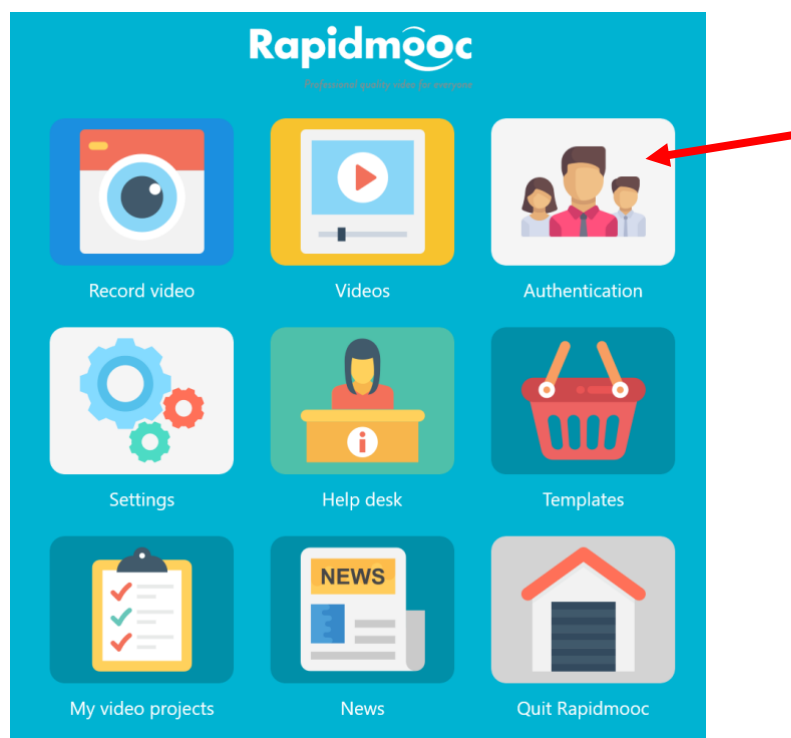

Click on the **Save** button and go back to the home screen

The screenshot shows the 'Rapidmooc' application window. On the left is a sidebar menu with options: General settings, Video platform (selected), Web Meeting platform, Authentication, File transfer, Video capture, Live Streaming, Speaker auto tracking, Teleprompter, Additional features, and Advanced settings. The main content area is titled 'Select your video platform' and features a dropdown menu with 'Kaltura' selected. Below this are three input fields: 'Video platform URL' containing 'https://kmc.kaltura.com', 'Security parameter #1' (empty), and 'Security parameter #2' (empty). A red note at the bottom states: 'Please note that video platform integration may require specific support or service.' At the bottom of the form are two buttons: 'Save' and 'Back'.

## Authentication

Authentication must be performed before videos can be uploaded to Kaltura.

Once the Kaltura plugin has been configured, you have access to authentication from the home page.

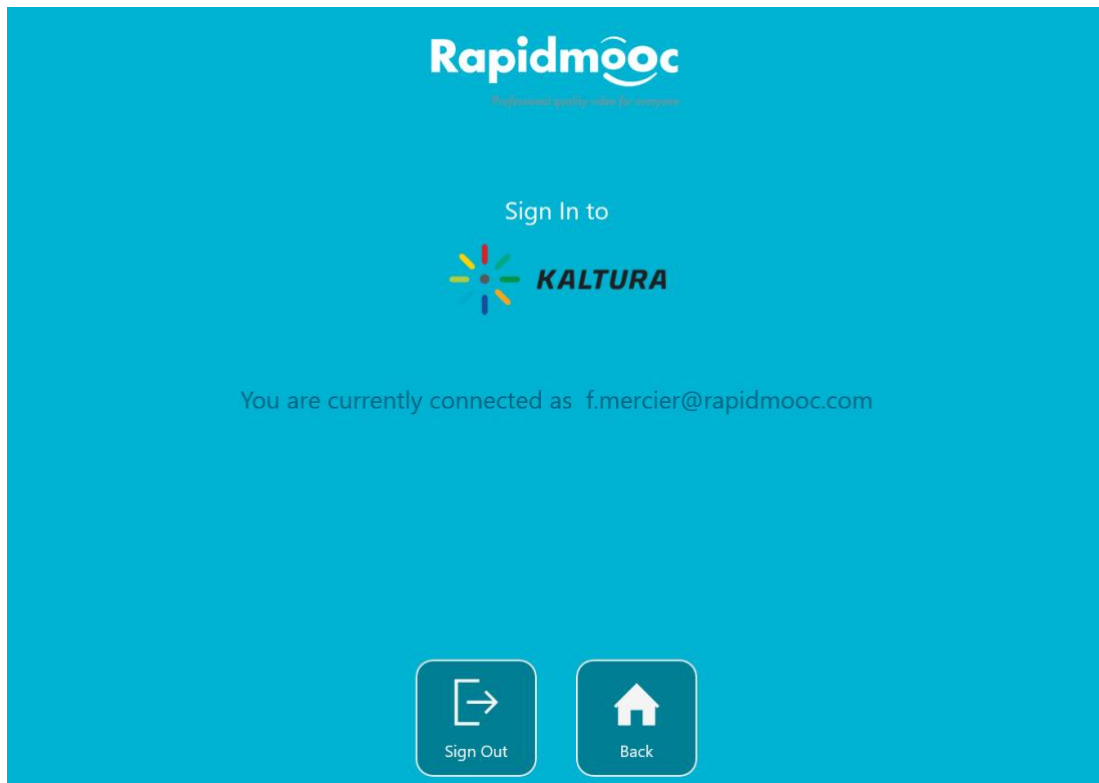

Enter your login and password and click on the **Sign In** button.

The image shows the 'Sign In to KALTURA' form on the Rapidmooc platform. The form is set against a blue background. At the top, the 'Rapidmooc' logo is visible. Below it, the text 'Sign In to' is followed by the 'KALTURA' logo. There are two input fields: 'Login' and 'Password'. Below these fields, a note states: 'Please note that the password can be left blank. In this case there will be no authentication with your account, but you will be able to upload the videos to your personal space on the Kaltura platform.' At the bottom of the form, there are two buttons: 'Sign In' (with a checkmark icon) and 'Back' (with a house icon). A red arrow points to the 'Sign In' button.

Please note that the password must be left blank if your Kaltura platform relies on an SSO authentication server.

Once authentication has been completed, the message below appears on the screen.

You will then be able to upload your recordings from the share button when viewing a video.
